

Bay Grasses in Classes Wild Celery Pre-lab Activity

1. Why is wild celery important to the Bay?
2. What will you be investigating in your experiment? (What question will you answer?)
3. What variables will you control in your experiment?
4. How is your experiment representative of conditions in the Bay?
5. What is your hypothesis?
6. What effect do bay grasses have in your community?
7. What can you do to decrease pollution to the Chesapeake Bay and help bay grasses?
